

The Lunchroom  
By: Mario Collier

"Delicious!" I yelled. If I can make changes in my school lunchroom I would give us more time to eat, allow us to talk, and serve talking is important because like you different types of drinks.

Giving us more time to eat is important because if you don't eat you can probably die or get sick. Also you gotta eat so you can get stronger for example would of your mom or dad needed help picking a big dresser up you was gonna help then the mom or dad just gonna think that they are doing most of the work you can't do it because you are weak. Last you need food so you can move and stuff for example running, walking, punching, slapping, playing the game those are some examples why you should eat.

Talking is important because you can learn more about you friends If you don't know your friend he or she probably is your true friend. He or she probably is a thief. Also talking is important because would've you mom was in trouble you was gonna have to talk or you just going to be looking crazy! Last it is important to talk because would've you was picking up something super super duper heavy you was gonna say something like this is super super duper heavy. those is some examples why you gotta talk.

The last thing i'm going to talk about is giving us different types of drinks. If you just drink the same thing over and over again you just going to have the same taste in your mouth these is some drinks you can keep drinking twenty four seven. apple juice, fat free milk regular white milk, kool aid, and water. Also if you keep drinking that same old drink it just going to get nastier and nastier and nastier thats why you should drink different types of drinks.

Giving us more time to eat, talking, giving us different types of drinks is important because giving us more time to eat let us survive. Also letting us talk is important because would've someone was in danger you would wanna go tell an adult. The last thing thats important is giving us different types of drinks is important because giving us the same milk over and over again is disgusting! These are some important things you need to change if you could change your school lunchroom!
